# FRIGHTFUL PUMPKIN CAKES

## INGREDIENTS

- 1/4 cup butter
- 1 large bag of marshmallows
- 6 cups of puffed rice cereal
- Orange food colouring (or a mixture of red and yellow)
- A few chocolate fingers

## UTENSILS

- Black and green icing pens

## INSTRUCTIONS

1. Melt the butter over a low heat, in a large pan.
2. Add the marshmallows and stir until completely melted into the butter.
3. Remove from the heat. Add several drops of orange food colouring and mix together. Continue adding orange food colouring drops until you are happy with the colour.
4. Add the puffed rice cereal and stir to combine.
5. Once the mixture is ready, coat both hands with a small amount of cooking oil to avoid sticking. Take a small handful of the mixture and roll the mixture into small balls. Set on parchment paper.
6. Once cooled, using your black icing pen, draw on a pumpkin face. Using your green icing pen, draw a couple of leaves on the top. Snap off a 1/3 of a chocolate finger and push into the top of the pumpkin to create a stalk.
