
 **3 million people in the UK are affected by kidney disease, it can affect anyone at any time and there is no cure.**

 **If your kidneys fail it is fatal, only regular intensive treatments of dialysis or a kidney transplant will keep you alive.**

 **5 people a week die whilst waiting for a kidney.**

 **Kidney Research UK are the leading charity dedicated to funding research into kidney disease.**

 **We are urgently searching for breakthroughs in kidney disease that will save the lives of patients across the UK.**

**Support Kidney Research UK
and help us save more lives**
